Check in with members
- Everyone seems okay

Check in with progress of previous work
- Icons are done and working okay
- ETE will be done this week
- Background notifications bug
- Service worker bug:
    - Won't install properly
- Timer page is done/has PRs available/small cypress bug
- Main page finished on desktop view

Talk about sanat meeting/team reviews
- We will add some of the edits recommended by the team

Talk about next steps in testing (users/ETE)
- Tuesday I'll send link to group

Talk about if we want to add anymore (electron)
- We're done, we'll see how tuesday goes

Repo cleanup (11 branches and 5 pull requests)
- Try to delete old branches
- Ask for reviews on open pull requests in #frontend

Next Sprint:

Done by Tuesday:

- **Pomos while working on timer page** **(mesa)**
- Keyboard shortcut (almost done) (luke Liam)
- **Background notification bug** **(Alan Mark chris)**
- Timer page has cypress testing block (Steven Chris Mark)
- **Audio notifications** **(Luke)**
- **Finalizing instruction cards** **(Mesa Liam)**
- Misc UI tasks
    - **hover for edit name icon (tool tip)** **(Xingyu)**
    - **Start my day → start my session**
    - **Info page popup when user enters name** **(Steven)**
    - **Add settings icon into info page if available** **(Mesa)**
    - **Task bar title updates with timer value/favicon changes** **(Alan)**
    - Task title only shows first 20 characters (Luke)

Done by Friday:

- Complete mobile integration
- **100% HTML valid** **(Alan)**
- End to end testing (Chris Mark)
- Refactoring
    - HTML components
- Repo cleanup (Liam)
    - Diagrams/Figma
    - Adr for frontend
    - Readme needs pictures
